BIOVIA Discoverant CM is a process informatics software application for contract manufacturing that offers CMOs a collaborative data access, contextualization, analysis and reporting environment that eliminates geography as a factor in the working relationships among CMOs and sponsors.

**DISCOVERANT CM BUSINESS BENEFITS FOR CMOs**
- Increase margins through value-added services such as process analysis, trending, deviation investigation and APR preparation for sponsors
- Increase inventory turns
- Realize supply predictability
- Maximize capital expenditures

**AGGREGATION/CONTEXTUALIZATION**
BIOVIA Discoverant CM maps data-type and batch relationships from paper batch records, databases and data clouds – throughout each sponsor’s manufacturing processes.

**ACCESS**
BIOVIA Discoverant CM provides CMOs with real-time, on-demand access to all production data in a point-and-click environment allowing better understanding and control of variability sources.

**ANALYTICS & REPORTING**
BIOVIA Discoverant CM enables CMOs to provide each sponsor with powerful analytics and reporting through their own collaborative dashboard.

BIOVIA Discoverant CM is a component of the BIOVIA Process Management and Compliance Suite, a comprehensive software offering for capturing, managing and analyzing development and process data in new product development and commercial manufacturing and quality operations.
